

At **Paige**[®]

Sometimes

thinking
INSIDE the box
can be
a good
thing!

Introducing

The 2-handle 40lb max. **Paige 1pac™**

and our Heavy Duty

4-handle 100lb max. **1pac 2™**

they both **outperform**
comparable capacity reels, Here's How:

Performance Comparison	1 PAC & 1 PAC 2	COMPARABLE Capacity Reel
Installs Faster!	×	
Works with OR without a rack!	×	
Easy to set up and easy to move!	×	
Won't tangle or backlash!	×	
Stops dispensing when you stop pulling!	×	
Won't need an extra set of hands to prevent overruns!	×	
Has up to 4 Double Reinforced Handles!	×	
Can carry as much weight as the installer wishes!	×	×
Will still dispense if damaged in transit or dropped!	×	
NO splinters!	×	
Can be waterproofed!	×	
Stacks well!	×	
No special FedEx/UPS handling charges!	×	
Saves warehouse handling costs and cuts down SKU's!	×	
No Disposal Cost, it's Recyclable	×	
Sustainability Comparison	1 PAC & 1 PAC 2	COMPARABLE Capacity Reel
Made from recycled material!	×	
100% recycled zero waste!	×	
Easily collapsible and disposable when empty!	×	
Won't end up in a landfill!	×	

At **Paige**[®] we think
OUTSIDE and **INSIDE** the box
for our customers
and for the environment.

Every year millions of tons of waste are poured into our nations landfills in the form of construction scrap. A critical culprit is the plywood reel. As a chemically infused product, it cannot be recycled naturally and the cost to try to recycle its elements is prohibitive. As such, it becomes a disposal product and in some countries must be disposed of in special facilities such that the glues and chemicals used will not contaminate waste by-products and ground water.

In response to customer challenges to eliminate this package, the Paige 1 Pac and 1 Pac 2 products were designed. Able to be used in all the same ways a reel is used but 100% recyclable, the Paige 1 Pac products are a "cradle to cradle" sustainable product. That means it never needs to see a landfill. Moreover, this product is originally constructed using 50-75% recycled material so it contributes to sustainability in two ways.

Paige 1pac™ and 1pac₂™ Saves Time, Money and The Earth
